Castle Field Path. The Chairman explained that the owner of Crayke Castle had placed notices directing walkers to the adjacent Public Footpath and restricting walkers from traversing all the way along Castle Field. It was explained that the public footpath started and ended at the same point and ran parallel about 12 feet distant on the other side of a hedge/ditch. It was pointed out that although the path across Castle Field had been walked for over 20 years and a Right of Way could be applied for, if the Castle owner objected to such an application it would go to arbitration with little chance of success in the light of the existing Public Footpath. Unfortunately, in an act of vandalism some walkers had since damaged or removed the signs throwing one of them into an adjacent farmer's field. It was stated that such vandalism was unsupportable and would have a negative influence in any negotiation with the Castle owner.

Decision: It was decided that in light of the adjacent footpath the PC would not attempt to obtain a Right of Way but asked the Clerk to talk to the Castle owner to see if he would allow access as a Permissive Path.

Tree in Jack Lane. The Chairman explained that the owner of Church Farm had written requesting that a tree in Jack Lane be reduced in height as it interfered with the view over the Vale of York.

Decision: Following discussion the PC decided to refuse the request and the Chairman would write explaining that in light of the number of trees around Crayke it was not feasible to accommodate such a request.

Church Steps Post. The Clerk reported that one of the Oak Posts, nearest Crayke Hall, had been damaged by a vehicle the owner of which had not reported it. The post had served its purpose as no damage had been done to the Church Steps. The Clerk reported that he had asked Dave Muir to see if the damage could be repaired rather than replacing the post which is installed in concrete. Cllr N. Jackson has replaced the smashed reflector.
